DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, drawn to coating agent.

Group II, claim(s) 7-12, drawn to method of coating.

Group III, claim(s) 13-17, drawn to coated bottles.

Group IV, claim(s) 18-21, drawn to a coating system.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is anticipated by or obvious over one or more of JP 04362033A; EP 423337B1; and JP 08091856A. Accordingly, the special technical feature linking the three inventions, a coating agent containing silicon alkoxide and metal alkoxide components, does not provide a contribution over the prior art and no single general inventive concept exists. Therefore, restriction is proper.

3. A telephone call was made to Mr. Beaumont (703/413-3000) on September 27, 2001 to request an oral election to the above restriction requirement, but no election was made.

Art Unit: 1772

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
